

Stratford Board of Education

Administration Center

1000 East Broadway
Stratford, Connecticut 06615

January 11, 2013

Good Morning,

This is Margaret Lasek, Interim Superintendent for Stratford Public Schools.

This is a test alert.

The Board of Education recently secured a new parent emergency notification system which expands our current capability to notify parents and guardians of school information through voice, text, and emails.

Today, Friday, January 11th, your child will bring home the Emergency Contact Information Sheet that we currently have on file.

Please review the information, and make the necessary changes to update this emergency contact information form. This form should be returned to your child's school secretary on Monday, January 14, 2013.

Recent events make this emergency contact initiative critical to our operations so that we can effectively communicate with you and your family regarding matters affecting your child's school.

Thank you for your cooperation.

Margaret Lasek, Interim Superintendent
